

# How to Measure Your Kettle Grill

Before you order your cover, you will need to carefully measure the kettle grill it is meant to cover. Our guide below will walk you through the steps to correctly and accurately measure your grill to ensure you get the best fit.

## Diameter

Measure side to side,  
across top of the kettle grill  
at the widest point

## Height

Measure from ground to  
top of the kettle grill  
(when closed)

Please round up your dimensions to the nearest inch.

**Please note:** Published dimensions for grill cover styles refer to grill dimensions

## Additional Tips

Each cover is intuitively designed to allow for hem-to-ground space for necessary air circulation

If no kamado cover with your dimensions exists, choose one that is slightly larger in diameter
